TO WHOM IT MAY CONCERN

As a professional advisor, it is clear to me that my entrepreneurial clients require a relationship with their financial planners. They must feel comfortable asking questions and be informed when considering alternatives that will impact on the financial security of their families.

Tim Haunn inspires such confidence. Products are considered as a part of the solution *only after* Tim has ensured that the client's needs and goals have been fully addressed.

Sincerely,

WADE & PARTNERS LLP
Chartered Accountants
